PROFESSIONAL SUMMARY

DevOps-focused Software Engineering student with hands-on practice in Linux, Docker, Kubernetes, CI/CD, cloud fundamentals, and infrastructure automation. Interested in reliability engineering, observability, and building systems that are easier to deploy, monitor, and troubleshoot. Seeking an entry-level DevOps role to strengthen practical engineering skills while contributing to stable and maintainable systems.

TECHNICAL SKILLS

Operating Systems	Linux (filesystem, permissions, systemd, process management, logs)
DevOps & Tools	Docker, Terraform, GitHub Actions, Kubernetes, AWS, Azure, Ansible
Version Control	Git/GitHub, Branching, Commits, Pull requests, Merge conflict resolution

LANGUAGES

JavaScript, Bash / Shell scripting, HTML, CSS

EXPERIENCE

UI/UX Designer <i>Corvo Inc.</i>	2023 - 2024 <i>Naxal</i>
- Designed responsive website interfaces in Figma for freelance clients. - Independently managed and delivered multiple design projects based on client requirements.	

PROJECTS

Book Review App — AWS EKS Three Tier App

Technologies: Docker, Kubernetes, AWS EKS, Aurora MySQL, Terraform, ECR

- Deployed a full-stack app on AWS EKS using Docker, Kubernetes, and Aurora MySQL.
- Provisioned infrastructure with Terraform and resolved deployment issues.

DevOps GitOps Capstone

Technologies: AWS EKS, Terraform, Docker, GitHub Actions, Amazon ECR, Helm, ArgoCD, Prometheus, Grafana

- Deployed a containerized app on AWS EKS using Terraform, Helm, and ArgoCD.
- Built CI/CD with GitHub Actions and ECR, plus monitoring with Prometheus and Grafana.

InvoiceFlow DevOps Infrastructure

Technologies: AWS EC2, Terraform, K3s, Docker, Helm, ArgoCD, GitHub Actions, Prometheus, Grafana

- Deployed app on AWS EC2 using K3s, Docker, Helm, and ArgoCD.
- Provisioned infrastructure with Terraform and added CI/CD, GitOps, and monitoring.

Portfolio Website CI/CD — DevOps Portfolio

Technologies: GitHub Actions, GitHub Pages, HTML, CSS, JavaScript, Custom Domain

- Built and deployed a personal portfolio using GitHub Actions and GitHub Pages.
- Practiced automated deployment, Git workflow, custom domain, and DNS setup.

EDUCATION

Bachelor of Software Engineering

Nepal College of Information Technology

2026

Lalitpur
